Please refer to your letter of 27 October 1958 in which you invite the cooperation of this agency in the provision of foreign publications obtained as a result of ARPA activities abroad.

This office has arranged that your agency be placed on distribution for any such documentation obtained. It is not anticipated that this office will be in a position to provide extensive documentation of value to your committee; however, it has been true in the past that certain otherwise not widely disseminated publications have come into our hands.

Should you, or your representative care to discuss this program further and to examine certain publications generally available within this office, we would be most happy to meet with you.

Sincerely yours,
